

Campbell House Program Descriptions

A Day in the Life

Target Grades

Kindergarten – 2nd

Goals and Objectives

Introduce students to the Campbell family and their servants.

Students will compare and contrast their own lives with those who lived a century ago.

Program Description

Tour the house from the perspective of the Campbell family and staff who lived there.

Follow anecdotes and stories of life in 1910 while exploring early 20th century lives and how they parallel and differ from the lives of the students.

Technology and Innovation

Target Grades

3rd – 5th grade

Goals and Objectives

Students will compare and contrast the technology available today to the technology of the early 20th century.

Program Description

Study the house and the lives of the Campbell family as they evolve from the traditional oil lamp-lit Victorian Era to the Progressive Era, filled with temperance movements, suffrage, and carbon filament light bulbs.

Design and Architecture

Target Grades

6th – 12th grade

Goals and Objectives

Discover how traveling and awareness of other cultures influenced the design of the Campbell House.

Explore Kirtland Cutter's architectural work on the Campbell House and in Spokane.

Program Description

Delve deep into the structure of the house from its oak beams to the hierarchy of the household. This tour highlights Kirtland Cutter and his architectural contributions to Spokane and explores the diversity of the Campbell's travels and taste, as well as how the house has evolved through its existence.
